

WHO WE ARE

“Our experience in diverse industries and collaboration with numerous manufacturers allow for application of **best fit solutions**. This expertise drives our design and engineering to achieve the safest, highest performing, lowest cost of ownership, and most robust analytical system solutions.”

WHAT WE DO

Applied Controls is focused on the total Analyzer System from the sample point to sample return. We can design, engineer, build, start-up, train and service on-line continuous analyzer systems-from wall mounted units to complete shelter houses.

WHAT WE OFFER

- Environmental/Process Analyzer System Integration
- Analyzer System Engineering
- Sample Conditioning Systems
- Enclosure/Shelters
- F.A.T. Live Streaming
- Start-up/Commissioning/Training
- Field Service and Calibration
- Complete Turnkey Systems

VALUE-ADDED

- Technical Support
- Installation and Setup
- Maintenance
- Warranty

Calibration Services for Area Gas Monitors

Timely, On-Site Calibration Ensures Safety

SERVICES

- Detailed Calibration Audit Report
- Economical, Turn-Key Service
- Product /Service Warranty Available

Applied Controls On-Site Service offers the necessary servicing and inspections to ensure you can rely on your gas detection system remaining fully functional at all times. This includes adjusting transmitters and testing all components in the alarm chain. If you wish, we can also reconfigure transmitters and controllers to meet your individual requirements.

Our staff will audit each of your monitors, and compile a report of the following information:

- Tag Number
- Manufacturer
- Model
- Serial Number
- Gas Measured
- General Condition

Upon completion of the audit we can provide a turn-key base price per unit including:

- Travel/Per Diem
- Labor
- Calibration Gases
- Calibration Tools
- Certification of Calibration

Base pricing does not include the following items, however they can be provided at an additional cost:

- Repair of Non-functioning Transmitter
- Replacement Parts

ADVANTAGES

- Applied Controls has over 75 years of combined experience in Sample Systems for all types of analytical measurements; including Gas Chromatography, moisture, etc.
- We can utilize any manufacturer's equipment that proves to be the best fit technology for the application needs.
- Our Engineering Staff are Sample System experts. We design your analytical systems from Sample Point to Return, covering everything in between.
- Our dedicated Service Engineers ensure our customers receive second to none support for all commissioning and on-demand service needs.
